

## PRODUCT DESCRIPTION

# SFF IG PREMIX®

## ¡100% PURE ESSENTIAL OILS!

SFF IG Premix® is a blend of 100% pure essential oils that guarantee a minimum of 85% of the active product, with bacteriostatic, fungicidal, viricidal and stimulant properties to be incorporated into the feed.

Essential oils are important aromatic components of herbs and spices, and are used as natural alternatives to replace antibiotics that promote growth and enhancer of productive parameters in laying birds, broilers and pigs, and more. The results obtained with the use of essential oils and other natural products as performance enhancers are of high importance in animal production.

## BENEFITS

- Antimicrobial, antifungal, antiparasitic and antiviral properties.
- Natural growth promoter.
- They stimulate appetite.
- Many essential oils stimulate the growth of beneficial microorganisms and limit the number of pathogenic bacteria in poultry and pigs.
- Improvement of the secretion of enzymes related to the digestion of food.
- Improves the activation of the immune response.
- Clear effectiveness in the control of Salmonella.
- Effective against gastrointestinal parasitism.
- Oregano and thymol oil have anticoccidial action against E. Tenella and Eimeria spp mixta.
